

K-LOVE (100.9, 100.5, and 105.5) gives my teenagers an opportunity to listen to songs that are not only appealing as "the music style of the day", but have a positive, uplifting message: NO sex, drugs, & rock/roll messages. The youth appealing style of the tunes allows my children to share their positive mood with their peers, creating a moment of rapport and discussion concerning pressing issues of the day. Any platform that can create such a good reaction in our young people, should never be in jeopardy. To lose such an outlet would be a crime.
